

Streaming and Your Livelihood

- It takes an annual salary of \$207,500 to qualify for a mortgage on a median home in Los Angeles.
- If you work primarily on traditional film and TV projects, you would need to play about **145 single sessions per year** to afford a median home.
- If you work primarily on Made-for-Streaming projects, you would need to play **724 streaming sessions per year**. That's 2 sessions a day, 7 days a week, 52 weeks out of the year!

As Made-for-Streaming work (which doesn't produce residuals) continues to eclipse traditional film/TV work, AFM musicians are finding it increasingly harder to make a living.

**It's time musicians unite and demand our
Fair Share!**
